

ENERGINET.DK CHOOSES NEXANS HV CABLES

NEXANS WILL SUPPLY CABLES TO HELP DENMARK MOVE OVERHEAD LINES UNDERGROUND

Paris, June 13, 2016 - Energinet.dk, the Danish Transmission System Operator (TSO), has signed a framework agreement with Nexans for the delivery of around 500 km of high voltage (HV) cables. The cables will be used for a series of 170 kV projects from 2017 to reinforce the grid and meet the growing demand for energy in the region.

The contract, worth more than €20 million, will see Nexans supply and install cables with a cross section of between 800 and 2000 mm². The cables will have a solid aluminium conductor and an aluminium wire screen.

Energinet.dk will use the cables all over Denmark in different future cabling projects.

Ralf-Michael Menger, Sales Manager Land High Voltage, said, “*We are excited to be continuing our strong relationship with Energinet.dk. We are proud to be contributing to energy security while improving the environment.*”

Nexans and Energinet.dk have collaborated on many projects. In 2015, Nexans supplied cables to Energinet.dk’s projects Jylland-Fyn and, Storstrømmen, and the two companies also collaborated on the Køge Bugt project.

The first project description is expected by Summer 2016 for delivery in 2017. Nexans will manufacture the cables at its plant in Hanover, Germany.

About Nexans

Nexans brings energy to life through an extensive range of cables and cabling solutions that deliver increased performance for our customers worldwide. Nexans’ teams are committed to a partnership approach that supports customers in four main business areas: Power transmission and distribution (submarine and land), Energy resources (Oil & Gas, Mining and Renewables), Transportation (Road, Rail, Air, Sea) and Building (Commercial, Residential and Data Centers). Nexans’ strategy is founded on continuous innovation in products, solutions and services, employee development, customer training and the introduction of safe, low-environmental-impact industrial processes.

In 2013, Nexans became the first cable player to create a Foundation to introduce sustained initiatives for access to energy for disadvantaged communities worldwide.

Nexans is an active member of Europacable, the European Association of Wire & Cable Manufacturers, and a signatory of the Europacable Industry Charter. The Charter expresses its members’ commitment to the principles and objectives of developing ethical, sustainable and high-quality cables.

We have an industrial presence in 40 countries and commercial activities worldwide, employing close to 26,000 people and generating sales in 2015 of 6.2 billion euros. Nexans is listed on Euronext Paris, compartment A.
